

Judges, Reviewers, and Commenters

Empower a Billion Lives submissions go through many different reviews as teams progress through the competition.

The initial reviews for the 3-Page Concept Paper are completed by the Empower a Billion Lives Steering Committee, the Full-Proposal Reviews are completed by the Empower a Billion Lives Steering Committee and comments are taken from associated energy access professionals affiliated with the IEEE Power and Electronics Society. The Field-testing interviews are completed by this same group along with regional experts and are conducted by video/conference calls. The Global Final interviews are conducted face-to-face and the Empower a Billion Lives Steering Committee is present as well as selected judges who will be listed at that time.

The Empower a Billion Lives Steering Committee

Deepak Divan, Global Steering Chair, Director of the Center for Distributed Energy, Georgia Tech, US
Jelena Popovic, Global Steering Vice-Chair, University of Twente, NL
Issa Batarseh, Global Steering Vice-Chair, University of Central Florida, US
Sanjib Kumar Panda, Global Steering Secretariat, TC-12 Liaison, National University of Singapore, SG

Reviewers from EBL I and Current

Deepak Divan, Global Steering Chair, Director of the Center for Distributed Energy, Georgia Tech, US
